Skills

Programming Languages
Assembly (8086), C, C++, C#, Java,
JavaScript, Kotlin PHP, Python.

Development Technologies
Ajax, Bootstrap, Laravel, MariaDB, MySQL,
Node JS, PostgreSQL, React, React Native,
Redis, SQL Server, Svelte, UIkit.

Pentesting Tools
Aircrack-ng, Burpsuite, John the reaper,
JoomScan, Lynis, Metasploit, Nessus, Nmap,
OpenVAS, WireShark, Zphisher.

Other Technologies and Tools
Docker, Git, Hyper-V, Linux, Microsoft
Office, ServerLess, TrueNAS, VMware
WorkStation / EsXi, Windows, Windows
Server.

Languages

- Spanish (Native speaker)
- English (Advanced, C1)

Aptitudes

- Effective Time Management
- Adaptability
- Teamwork
- Ability to Work Under Pressure
- Communication skills

Profile

I am currently a 9th semester student of the Computer Systems Engineering career at Instituto Tecnológico de Morelia, with a specialty in Information Security.

I consider myself as a responsible, enthusiastic, curious, and committed developer, who likes challenges and to learn new things every day.

Education

Computer Systems Engineering, Instituto Tecnológico de Morelia
Aug 2017 - Today
Information Security specialty.

Professional Experience

AQUATA, Granja Trutícola "El Tepetate"
Jan 2020 – Jun 2020
- Frontend and backend development.
- SQL Database design.
- Software requirements gathering and documentation.

MIA Website, Maestría en Ingeniería Administrativa
Mar 2021 – May 2021
- Frontend development
- Software requirements gathering and documentation.

Raccoon Solutions Website, Raccoon Solutions
Nov 2021 – Today
- Frontend development

DIINCO, INII Inversiones Inmobiliarias
Oct 2021 – Today
- Frontend and backend (API REST) development
- Project hosting and VPS configuration
- Software requirements gathering.

CAO, Freelancer
Apr 2021 – Oct 2021
-Frontend and backend development

Courses

Introduction to Cybersecurity, Cisco Networking Academy
Nov 2020 – Dec 2020
CCNA Basic principles of routing and switching
Aug 2020 – Feb 2021
CCNA Scaling Networks, Cisco Networking Academy
Aug 2020 – Feb 2021

Personal Interests

I love to watch movies on my free time, science fiction is my favorite genre and honestly, I don't like horror movies. I am also into sports, I like to practice and watch sports, American Football is my favorite.

I also spend my free time trying Linux distributions and learning about hacking and scripting.
